GOOD LIFE STORIES 2024

LEONARDO

welcome

With our company and our brand, we are making a commitment to people and nature. In 2024, this will be more important than ever in many areas of our lives. The last few years have shown us which direction we need to take.

We are making the world a better place with our sustainable material glass. Although glass is made from natural raw materials, it is fragile but also imperishable in the long term and more fascinating than almost any other material. Our passion for creating products for everyday use as well as special highlights is what drives us.

This year, living trends are more individual and sustainable than ever before. Shape and colour must always create a perfectly harmonious combination and integrate naturally into the home. With our new home collections SIENA and MILANO we created the ideal conditions for this. Our BUONI AMICI object figures provide expressive touches of colour. Each tells its own story - real #GOOD LIFE STORIES.

Get ready for the fascination of glass.

Sincerely yours,  
*Bianca & Oliver Kleine*

# THE DIGITAL CATALOGUE

Browse through our digital catalogue at your leisure or go specifically to the series and products you are looking for.

The digital catalogue guides you to topics and products with easy navigation. You can download images of the new products directly or open and print out matching POS material.

Would you like to order via our B2B platform? No problem - just click directly on the corresponding button.

If you have any questions, requests or suggestions, our customer service will be happy to help.

Here you will find a selection of photos of the respective collection.

Click this button to go directly to our B2B platform.

For more information about products, collections or themes, click on this symbol.

In a short video, designers and product developers give you an insight into the series.

Quick and easy back to the table of contents.

# SUSTAINABILITY PROFILE

As a family business in the 5th generation, we bear responsibility for our employees, and for the environment at our location - our home. As a result of this, we joined selected organisations several years ago and we also started aid projects.

It goes without saying that we adhere to socially and environmentally relevant obligations and rules. We integrate our commitment to the environment and society into our daily processes which we continuously optimize to achieve more with less effort.

Every approach is important so that we can hand over our company to the next generation in a healthy and intact environment.

## Quality

Quality is our top priority. As a brand company, we believe we have a duty to our employees, our business partners and, above all, our end consumers. Our products, processes, and practices are constantly scrutinised and optimised where necessary as part of a continuous improvement process.

## Environment

glaskoch continuously monitors the environmental impact of its commercial activities, both at the site itself and in its supply chains. In doing so, we always aim to continuously reduce negative environmental impacts. As a result, CO<sub>2</sub> emissions caused by energy consumption at the site in Herste have been reduced by more than half over the last 10 years.

Our company has been certified according to the demanding FSC®-standard since 2018.

## Social matters

The management of glaskoch personally guarantees strict compliance with human and labour right, with due regards to equality and discrimination.

All employees have access to an independent, protected complaints management system.

Furthermore, glaskoch has a dedicated specialist for occupational safety, safety officers and first responders in all departments/areas.

Regular training and discussions are very important and are carried out on an ongoing basis.

In our supply chains, we are also continuously driving forward the sustainability issues of social responsibility, occupational safety, and environmental protection as part of our active amfori BSCI membership. Suppliers who are ready for innovation are supported without compromising their self-determination. Suppliers who do not demonstrate a sustained willingness to develop are not sustainable for glaskoch in the long term.

Member of amfori, the leading global business association for open and sustainable trade. For more information visit [www.amfori.org](http://www.amfori.org)

# QUALITIES

## TEQTON - QUALITY YOU CAN CLEARLY SEE

Our patented glass formula ensures a long life! Increased breaking strength and resistance. The glass is well protected, especially when subjected to heavy use, and its long-lasting shine is convincing.

TEQTON® glass is extremely impact resistant, stable and has a scratch-resistant surface. The colour neutrality of the crystal glass ensures an unaltered reproduction and authenticity of the beverage colour.

dishwasher-safe | shockproof | crystal clear

## COLORI - OUR COLOUR IS DISHWATERSAFE

High quality, modern, durable, lightfast hydro lacquer, developed specially for tableware applications. Lacquers developed and produced exclusively in Germany. High resistance in everyday use.

It even lasts in the dishwasher!

## HANDMADE - CREATED BY HEART, MADE BY HAND

Unique products with personality - handcrafted manufacturing processes give the products a one-of-a-kind character. Work of art in typical Leonardo quality are labelled accordingly with a hangtag or sticker!

We recommend that handmade products in the decoration sector are preferably washed by hand. Handmade glassware can also be cleaned in the dishwasher according to the instructions.

# PICTOGRAMS

- 

Straight base plate
- 

Ovenproof up to 220°C
- 

Aroma development
