LINUM

It all began with a friendship and a vision. LINUM was founded over 50 years ago when an unexpected friendship blossomed between a Swedish globetrotter's design ideas and two Indian brothers business- and craftsmanship.

During a journey to India in 1966 LINUM's founder, Sven Kempe, met two ambitious brothers and what would become a lifelong friend- and partnership begun. They shared visions and values concerning quality and durability and wished to create long lasting products in harmony with both nature and humans.

LINUM's intention today is to create timeless and usable products for the urban home. We prefer a few classics made of top quality, to numerous massproduced batches that only last a short time. With a unique color pallet, we stabilize our assortment and secure that whenever you buy a product from us, you can find a matching one years later.

Inspired by the Swedish nature, with its gentle, pleasing shades and stylish shapes, we create tactile textures that only become more beautiful over time. Our design team draw patterns by hand and the inspiration comes from small Swedish getaways like Rättvik in Dalarna but also from outstanding icons like actress Ingrid Bergman and her impeccable style. Altogether we create usable products with elaborated details and a sophisticated, Swedish look and feel. That's our key.

L I N U M

Talented craftsmen's passion for their product is a key point behind retail's development and success. But as a brand, it has never been more important than now to review our causes our values. We're facing an extensive market renaissance in which climate issues will take up ever-increasing amounts of everyone's time.

Here at LINUM, we can feel there's a tension in the air that has the potential to turn into something significantly more dramatic than we've ever seen before. This feeling inspires us, and it's been crucial to the ideas we've come up with for our major velvet campaign for autumn 2019. We're focusing on our classic PAOLO collection, and a few new items such as curtains have been added. We've worked on the basis of a holistic approach, prioritising the creation of complete series of usable products that have been colour-coordinated on the basis of LINUM's unique code system. As far as we're concerned, a lot of hard work goes into every product, so they're all important. Our customers fully expect to be able to love their bedspreads, cushion covers or curtains for generations as we want to meet demands for increasing sustainability, so our priority is to make a small number of products that we truly believe in and can wholeheartedly support. With keywords such as tactile, refined and sophisticated, our enhancement of PAOLO has focused on all the things we feel are important in our busy day-to-day lives.

UNI is a practical series of runners and placemats in a classic ribbed quality. UNI products protect your cloth or table from stains and are made from practical, easy care cotton that's machine-washable up to 60°.

This series is available in a rich variety of colours, paving the way for infinite combinations. Mix and match placemats and runners in different colours, or go for a monochrome style and lay the table with textiles that are all of the same colour. Find the perfect colour coordination to match your own personal style.

The timeless collection. WEST was first launched on LINUM in 2003 and has since then been established as one of the market's foremost linen collections.

The cloth is woven and dyed at the manufacturer's facility in Lithuania where it is then transformed into the products for the collection with their unique LINUM design. The seams are inspired by classic denim and the corners of the napkins are sewn down. Such attention to detail shows that the products are made with precision and care. After it has been sewn, each product is washed and dried to produce its distinctive, raw appearance.

WEST is simple to use, wash and dry and holds its unique shape without ironing. The linen tablecloth becomes more sophisticated and formal when pressed, which means WEST can be used for many purposes. Designed to grace every room in the home, this is a collection of textiles that will last for years and age with dignity. With its versatility, WEST offers endless opportunities and the classic colourways in subtle Nordic tones makes WEST a timeless collection.

Everybody loves HEDVIG. We know how difficult it is to find exactly what you are looking for. Over the years, we are searching for practical tools that does the job, try new ones and replace them with others. With our HEDVIG range, we wanted to create a long lasting and usable collection of products to meet all your needs – both in the kitchen and when setting the table. Versatility is HEDVIG's strength, and this collection includes tea towels, tablecloths, napkins, placemats, runners, cushion covers and aprons.

This is a complete range to suit a varied target group with a number of different styles. We envisage HEDVIG as being part of a refined urban kitchen or a more rustic environment characterised by garden greenery. This apron is designed to withstand any of the challenges thrown at it while cooking, but it's also ideal when working in the greenhouse or pottering among the plants on terraces and balconies. HEDVIG products are easy to care for and come with easy care instructions. They're made from a hardwearing fabric, a carefully devised mix of linen and cotton that doesn't need ironing if it's shaped straight after washing. At LINUM, we're also proud of our harmonious colour range that allows our products to be used both individually and together.

HEDVIG products are also very popular as gifts as they're both usable and beautiful to look at. For instance, a tablecloth and a napkin kit or an apron with tea towels are a highly appreciated gift. In short: everybody loves HEDVIG.

PEPPER cushion covers and seat cushions have been a part of our assortment for decades. The fantastic quality and rich range of colours have made these LINUM signature products to a true bestseller year after year.

We're proud to be able to offer such a popular product, and we'd even venture to say that this is one of the top products in its segment. Our cushion covers and seat cushions can be washed at 60 celsius, which is probably one of the reasons behind its never decreasing popularity. We've put a great deal of effort into devising a product that maintains both its colour and its shape.

The PEPPER seat cushion has many applications – at the kitchen table, but also on the balcony, terrace or patio. We also know that a number of our customers use the seat pads on their boats, or take them along in caravans or camper vans. The fact that they're easy to store is an advantage, of course, as is the fact that they're so lightweight.

PEPPER is intended to be used as a basic product and can easily be combined with the rest of the LINUM range. This is why these colours have been carefully devised and coordinated with the rest of the LINUM assortment. ANNABELL, RAW and PAOLO are other usable and monochrome cushion covers.
